The scan body Atlantis (IO) FLO-S is used when scanning for Atlantis suprastructures. The FLO-S scan body without the IO marking can only be used for model scanning and is not approved for intraoral scanning. The IO FLO-S scan body can be used for both intraoral and model scanning.

Each Atlantis (IO) FLO-S reference number is sold as a kit containing a tray with 6 (IO) FLO-S for storing the non-sterile (IO) FLO-S and a Tag (to be placed in the Atlantis FLO-S case (REF) 36701) for 1 specific connection.

Elos Accurate® scan bodies are not compatible with Atlantis suprastructures.
